Dear Ms Warnock

Thank you for your letter. I am very pleased to have the opportunity to outline my position on the AWPR once more.

As you may be aware, I have consistently opposed the principle of the AWPR during my 7 years as Liberal Democrat councillor for Murtle. I do not have any preference for any of the routes, as I believe that no road should be built at all.

As far as I am aware, I am the only elected representative from any political party to actually formally move in open session that the entire AWPR process be abandoned. The minute of the meeting of Aberdeen City Council in June 2006 where I did this can be found here (page 14):

I hope that this response is useful to you.
